Willow Nest Furnishings

MAKE IT

Willow Nest Furnishings

Description

In the heart of the willow nest sculpture rugs, cushions and fabrics will line the woven willow to allow reclining and relaxation in comfort. The intention is that the furnishings and shape of the willow nest, which will have a concave base, will encourage reclining and gazing up into the clouds through foliage canopy of the trees that surround this space.

Function

To create a comfortable and relaxing space in which up to three children can relax and recline in luxury. This is a contemplative and restful place and the furnishings should reflect the dreamy and quiet activities likely to take place here. Day-dreaming, imaginary flights, shapes in the clouds, weather and tall stories may all form a part of the inspiration for the works.

MAKE IT

Construction

Size

Varies for each individual piece; the maximum diameter of the nest internally is 2m

Special Details

- The fabrics and patterns can be composed of individual patches fastened together or a series of larger pieces.
- Tapestry, patchwork, fabric painting and photo-montage based on the themes above can all be used here.

Materials

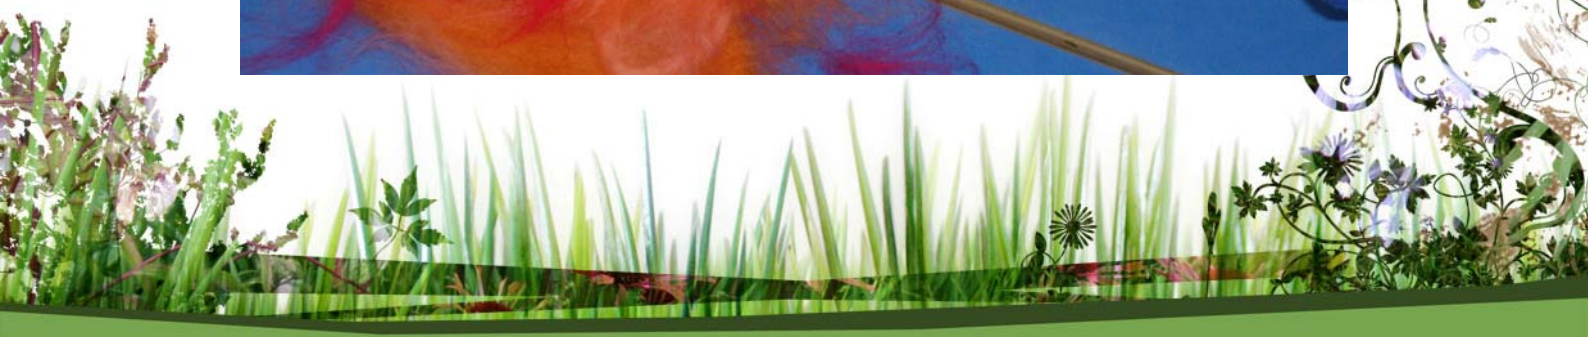

Materials should be colour fast and permanent dyes used. However, they need not be waterproof as these items will be stored undercover when not in use.

Contributing school

St Ives Infant School, Cornwall
